Accounting II Honors

I. Course Synopsis

The purpose of Accounting II (Honors) is to provide students with the fundamentals of financial accounting. Through instruction and student centered activities, and use of QuickBooks software, students will become familiar with accounting methods used primarily by merchandising businesses and corporations. Students will develop mastery of financial statement development and gain insight into statement analysis. Students will be prepared to enter into Accounting or Business curricula at the collegiate level. Fairleigh Dickinson University Middle Level College Credits are available for those students electing to take Accounting II at the Honors level.

II. Philosophy & Rationale

In today's global economy, students need to be lifelong learners who have the knowledge and skills to adapt to an evolving workplace and world. To address these demands, Standard 9, 21st Century Life and Careers, which includes the 12 Career Ready Practices, establishes clear guidelines for what students need to know and be able to do in order to be successful in their future careers and to achieve financial independence.

Mission: *21st century life and career skills enable students to make informed decisions that prepare them to engage as active citizens in a dynamic global society and to successfully meet the challenges and opportunities of the 21st century global workplace.*

Vision: To integrate 21st Century life and career skills across the K-12 curriculum and in Career and Technical Education (CTE) programs to foster a population that:

- Continually self-reflects and seeks to improve the essential life and career practices that lead to success.
- Uses effective communication and collaboration skills and resources to interact with a global society.
- Is financially literate and financially responsible at home and in the broader community.
- Is knowledgeable about careers and can plan, execute, and alter career goals in response to changing societal and economic conditions.
- Seeks to attain skill and content mastery to achieve success in a chosen career path.
